01 — BRAND FOUNDATION

Who we are & why we exist

Nedavate is a freelance instructional design and AI learning consultancy. We help organisations of every size build AI-powered, performance-driven training that doesn't just get completed — it gets applied. Founded by a university curriculum developer with deep expertise in eLearning, gamification, and AI integration.

MISSION

To help organisations grow with confidence by designing AI-enhanced, human-centred training that empowers every learner — not the boring, one-size-fits-all kind.

VISION

A future where every organisation — regardless of size or budget — has access to intelligent, personalised learning that drives real performance.

Core Values

Clarity First

Strip complexity down to what matters. Simple — not overwhelming.

Built to Scale

We design for where clients are going, not just where they are today.

Human-Centred

Behind every course is a real person. We design for them, not the checkbox.

AI-Forward Thinking

Intelligent tools make learning smarter, faster, more personal.

Respect for Time

No fluff, no filler — just what works. Effective training is efficient.

Performance-Obsessed

Success = transformation, not completion. Did results improve?

Unique Selling Proposition

"AI-powered, performance-driven training your employees will actually transfer to their work."

Supporting USPs — rotate by audience:

- From strategy to SCORM — one expert handles your entire learning project. (L&D; managers)
- Enterprise-quality training, built for teams that don't have enterprise budgets. (Non-profits & SMBs)
- Academic rigour meets real-world results — learning that's designed to stick. (Corporates & associations)

02 — TARGET AUDIENCE

Who we serve

Five distinct audience segments. Same core offer — AI-powered, performance-driven learning — adapted in tone and emphasis for each.

Segment	Pain point	What they need
01 Startups & Small Businesses Sarah Chen, 34 · Co-founder & COO · \$110k–\$140k	Onboarding is broken. High early turnover, no L&D; expertise internally.	Fast onboarding, leadership basics, AI-powered delivery.
02 Corporates David Mensah, 42 · L&D; Manager · \$85k–\$105k	Teams stretched. Tight deadlines. Needs reliable freelance ID.	Plug-in capacity — Storyline/Rise builds, storyboards, AI courses.
03 Coaches, Consultants & Course Creators Amina Patel, 39 · Executive Coach · \$70k–\$95k	Deep expertise but can't turn it into a polished eLearning product.	Course design, storyboarding, and Rise builds to sell or license.
04 Non-Profits & Charities Rachel Okafor, 46 · Program Director · \$60k–\$75k	High volunteer turnover. Inconsistent training. Tight budget.	Affordable, reusable onboarding and compliance modules.
05 Professional Associations James Tran, 50 · Head of Member Services · \$90k–\$115k	Members expect CPD. Still running webinars and emailing PDFs.	Professionally designed CPD modules and certification pathways.

Buyer Personas — Quick Reference

Persona	Role	Income	What they need from you
---------	------	--------	-------------------------

Sarah Chen, 34	Co-founder & COO, tech startup	\$110k–\$140k	Needs onboarding fast. High urgency, strong budget. Best entry-point client.
David Mensah, 42	L&D; Manager, corporate	\$85k–\$105k	Highest budget, repeat work. Speak peer-to-peer. Knows Storyline and ADDIE.
Amina Patel, 39	Executive coach	\$70k–\$95k	Wants to productise expertise. Collaborative tone. Portfolio-building opportunity.
Rachel Okafor, 46	Non-profit program director	\$60k–\$75k	Budget-sensitive. Mission-aware. Excellent for warm referrals within sector.
James Tran, 50	Head of member services	\$90k–\$115k	Justifies decisions to board. Formal tone. Strong budget. Long-term partner.

03 — SERVICES

What Nedavate builds

Seven AI-enhanced offerings. Every service connects to the same promise: training your people will actually transfer to their work.

01	AI-Enhanced eLearning Design & Development End-to-end course builds using AI-assisted authoring and smart tools. Delivered in Articulate Storyline & Rise, SCORM/xAPI ready. Storyline · Rise · SCORM · AI authoring
02	Personalised Learning Experiences AI-driven pathways adapting to each learner's role, pace, and knowledge gaps — so every person gets the most relevant training. Adaptive learning · Role-based content · Personalisation
03	Training Modules & Learning Pathways Structured onboarding, compliance, and leadership programs built on ADDIE & SAM — enhanced with AI-generated content. Onboarding · Compliance · Leadership · ADDIE · SAM
04	Gamification & Interactive Learning AI-powered game mechanics, branching scenarios, and simulations adapting to learner behaviour — making training feel less like work. Branching scenarios · Simulations · Badges · Rewards
05	AI Agents & Workflow Automation Custom AI agents and automated workflows — from onboarding bots to knowledge assistants — so your team focuses on what matters. AI agents · Automation · Workflow design · Integration
06	AI Readiness & Workforce Upskilling Helping people understand, adopt, and embed AI tools through practical training, awareness programs, and change support. AI awareness · Tool adoption · Change management
07	Educational Resources & Training Materials AI-assisted design of workbooks, facilitator guides, job aids, and infographics — faster turnaround, higher quality. Workbooks · Job aids · Facilitator guides · Infographics

04 — VISUAL IDENTITY

Colour Palette

Six colours form the Nedavate palette. Deep Indigo is dominant. Catalyst Teal accents. Performance Coral energises — use sparingly (max 10% of any design).

Swatch	Name	Role	Use for
	Deep Indigo #2D2A6E	Primary	Logo · Headlines · Navigation · Proposal covers · Email headers
	Catalyst Teal #0F9E78	Secondary	CTAs · Icons · Progress indicators · Service badges · Hover states
	Performance Coral #E8601A	Energiser	USP callouts · Key statistics · Social accents (max 10% of any design)
	Deep Slate #1A1A2E	Dark neutral	Body text · Footer backgrounds · Dark section backgrounds
	Warm White #F5F4F0	Light neutral	Page backgrounds · Card backgrounds · eLearning slides · Workbooks
	Steel Gray #7B8FA6	Supporting	Secondary text · Captions · Labels · Dividers · Inactive states

Typography

Three Google Fonts — free, universally available in Canva, Google Slides, web builders, and eLearning tools.

Syne Display / Titles Bold geometric sans-serif. For all headlines, hero text, slide titles, logo wordmarks, and section headings. Weights: 400 · 500 · 700 fonts.google.com/specimen/Syne	DM Sans Body / Reading Humanist sans-serif. For all body copy, proposals, eLearning content, emails, workbooks, and subheadings. Weights: 300 · 400 · 500 · <i>Italic</i> fonts.google.com/specimen/DM+Sans	DM Mono Accent / Technical Monospaced. For statistics, technical labels, framework names, AI callouts, and course UI elements. Use sparingly. Weights: 400 · 500 fonts.google.com/specimen/DM+Mono
---	---	--

Logo

The Nedavate logo combines an infinity loop with neural network nodes — visualising continuous AI-powered learning and the infinite potential of performance-driven training.

- Minimum size: 24px height (digital) / 8mm (print)
- Clear space: equal to height of 'T' on all sides
- Never stretch, rotate, recolour, or add effects
- Approved backgrounds: white, warm white, deep indigo, deep slate only
- Always use provided file formats — do not recreate the logo

04 — VISUAL IDENTITY (CONTINUED)

Photography Direction

All brand photography should feel like premium editorial meets a modern workspace — confident, purposeful, and human.

01 Authority Portrait	Direct-to-camera. Soft natural window light from the side. Slight forward lean. Calm, expert expression. Use: website hero, LinkedIn profile, proposals.
02 Deep Work / In Flow	Subject at laptop with screen glow accent light. 3/4 profile angle. Genuine focus expression. Use: about page, social content, blog headers.
03 Consultation Scene	Expert leaning in explaining, others engaged and taking notes. Warm meeting room. Visible materials or screens. Use: services page, case studies.
04 AI & Tech Moment	Human with screen showing dashboard or AI interface. Teal screen glow. Person clearly in control — not the technology. Use: AI services page, LinkedIn.
05 Teaching / Facilitation	Subject presenting to a small group. Mid-gesture for energy. Teaching tools visible in background. Use: speaking engagements, workshops, non-profit work.

Colour Grading & Styling

Shadows Lift toward indigo-purple	Midtones Keep warm and neutral	Highlights Clean, bright, teal-cool	Wardrobe Navy, indigo, teal, white, warm grey — solid colours only
--------------------------------------	-----------------------------------	--	---

Midjourney Prompt — Ready to use

Professional portrait of a confident woman in her late 30s, seated at a minimalist modern desk, wearing a deep navy blazer, soft natural window light from the left, slight forward lean, calm and direct eye contact, warm white background, shallow depth of field, editorial photography style, shot on Sony A7 IV 85mm f/1.8, muted indigo and teal colour grade, clean and premium feel --ar 4:5 --style raw --v 6

05 — VERBAL IDENTITY

Brand Voice

Nedavate speaks like the smartest, most direct person in the room — who also genuinely cares. Never arrogant. Never vague. Every word earns its place.

01 Boldly Direct

Nedavate states the problem clearly, names it confidently, and gets straight to the point. This directness is not rudeness — it is respect for the audience's time and intelligence. Every sentence should feel like it was written by someone who knows exactly what they're talking about.

WITHOUT this voice

"We believe that in today's fast-paced business environment, it can sometimes be challenging for organisations to fully optimise their learning and development strategies."

WITH this voice

"Bad training is expensive. If your people are clicking through courses and changing nothing, you're not investing in learning — you're paying for the illusion of it."

02 Intelligently Human

Deeply knowledgeable but never cold or exclusive. Speaks with warmth and makes people feel seen before offering a solution. Intelligence here means clarity, not complexity. Plain language for complex ideas.

WITHOUT this voice

"Our instructional design methodology leverages cognitive load theory and constructivist pedagogical frameworks to maximise knowledge retention outcomes."

WITH this voice

"You know your subject inside out. What you need is someone who can turn that expertise into a course your learners will actually finish — and use. That's exactly what we build."

03 Performance-Obsessed

Everything connects to outcomes — real, measurable, on-the-job results. Not training for its own sake, but training that changes how people work. Every sentence asks: so what does this mean for the client's results?

WITHOUT this voice

"We use Articulate Storyline and Rise to develop engaging, interactive eLearning modules with rich multimedia content and branching scenario functionality."

WITH this voice

"The goal isn't a course. It's a team that onboards in 3 weeks instead of 8, makes fewer mistakes, and stays longer. The course is just how we get there."

Do's & Don'ts

DO

- Lead with the problem before offering the solution
- Use short, punchy sentences for headlines and hooks
- Speak in outcomes — what changes, what improves
- Use 'you' and 'your team' — focus on the client
- Be specific — cite numbers, timelines, real scenarios
- Mix sentence lengths — long for context, short for impact
- Write like talking to one person, not a crowd
- Name the problem plainly — never hide behind jargon

DON'T

- Open with 'we' — it centres Nedavate, not the client
- Use passive voice — 'training is delivered to teams'
- Stack jargon — one technical term per sentence max
- Hedge — avoid 'we think', 'perhaps', 'it could be said'
- Use filler phrases — 'in today's fast-paced world'
- Talk about features without connecting them to outcomes
- Use buzzword soup — synergise, leverage, robust, bespoke
- Over-apologise or soften every statement unnecessarily

05 — VERBAL IDENTITY (CONTINUED)

Language Guidelines

Approved Words & Terms

Use these words freely — they are aligned with the Nedavate brand voice and values.

Transfer	Performance	Intelligent	Transform	Results
AI-powered	Apply	Build	Design	Measurable
Practical	Real	Purposeful	Personalised	Behaviour
Change	Outcomes	Onboard	Automate	Proven
Effective	Tailored	Scalable	Strategic	Impact
Clarity	Expert	Accelerate		

Forbidden Words & Phrases

Never use these — they contradict the brand voice and signal the kind of vague, jargon-heavy communication Nedavate exists to replace.

Synergise	Leverage (verb)	Holistic	Paradigm shift	Best-in-class
Cutting-edge	World-class	Robust	Utilise	Value-add
Circle back	Bandwidth	Touch base	Low-hanging fruit	Bespoke
Innovative	Passionate about	Game-changer	Disruptive	Going forward
Seamless	Ecosystem			

How to Address Each Audience

Startups & small businesses	Direct and urgent. Respect their time — get to the point fast. Lead with speed and reduced turnover. Avoid long theoretical explanations. <i>Opening: "Your team is growing faster than your onboarding can keep up. Here's how to fix that."</i>
Corporates	Peer-to-peer. Use L&D; language — ADDIE, xAPI, learning transfer — without overdoing it. Focus on reliability, quality, and professional credibility. <i>Opening: "Your team is stretched. Your deadlines aren't. I plug straight in — no onboarding required."</i>

Coaches & consultants	Collaborative and encouraging. Position yourself as the partner who makes their expertise shine. Never talk down to their subject matter knowledge. <i>Opening: "You have the expertise. I'll turn it into a course your clients will actually finish — and talk about."</i>
Non-profits	Warm, mission-aware, budget-sensitive. Show you understand their constraints without making them feel small. Focus on value and reusability. <i>Opening: "Your mission is too important for training that doesn't stick. Let's build something that works — within your budget."</i>
Professional associations	Formal but not stiff. Position Nedavate as a strategic partner. Avoid startup language — they justify decisions to a board. <i>Opening: "Your members expect more than webinars and PDFs. Here's how to build CPD they'll actually value."</i>

06 — TAGLINES & ELEVATOR PITCH

The words that define us

A three-tier tagline system — primary for all formal use, secondary for AI-focused contexts, campaign line for high-impact moments.

PRIMARY	<i>"Intelligent learning. Measurable transformation."</i> Use: Everywhere — website, proposals, email signature, business cards, logo lockup.
SECONDARY	<i>"AI-powered learning. Human results."</i> Use: LinkedIn, AI services page, social content, anywhere AI is the focus.
CAMPAIGN	<i>"The future of learning is here."</i> Use: Brand launch, new service announcements, speaking engagements, keynote slides.

Elevator Pitch — Confirmed

Bold & Direct tone. ~40–45 seconds spoken. Memorise the three-paragraph structure — hook, solution, close — and adapt the middle to your specific audience.

HOOK	Bad training is expensive. High turnover, underperforming teams, workflows held together with spreadsheets — most of it traces back to learning that was never designed to transfer.
SOLUTION	I fix that. I'm an instructional designer and AI consultant who builds AI-powered, performance-driven training for organisations serious about results. From personalised eLearning and gamified experiences to AI agents and workflow automation — I design solutions your employees will actually transfer to their work, not just click through.
CLOSE	No fluff. No filler. Just intelligent learning that moves the needle.

CALL TO ACTION	<i>"Ready to stop wasting budget on training that doesn't stick? Let's talk — and I'll show you what intelligent learning looks like."</i>
----------------	--

Subject Line Variants — by Audience

Corporates & L&D; "Your training budget deserves better results, [Name]"	Startups "Is your onboarding costing you good hires, [Name]?"	Coaches & Creators "Your expertise deserves a better course, [Name]"

07 — BRAND APPLICATIONS

Voice in action

Real-world applications of the Nedavate brand — ready to use across social media, email, and client outreach.

Social Media Bios

Instagram 134 / 150 characters	AI-powered learning that transforms how teams work. Instructional design · Gamification · AI agents → Book a free strategy call — link below
LinkedIn Headline	Instructional Designer & AI Learning Consultant Founder, Nedavate AI-powered training that transforms how teams perform Articulate Storyline · Rise · AI Agents → Connect and send me a message — I respond to every one
Twitter / X 151 / 160 characters	Bad training is expensive. I fix that. AI-powered learning & workflow automation @Nedavate → Free strategy call — link in bio

Intro Email Template

Subject: Your training budget deserves better results, [Name]
Hi [Name], Most training gets clicked through and forgotten — and your organisation pays the price in turnover, inconsistent performance, and teams that can't keep up. I fix that. I'm [Your Name], founder of Nedavate. I design AI-powered, performance-driven learning — from onboarding courses and leadership modules to custom AI agents — that your people will actually transfer to their work. I've helped [startups / non-profits / corporates] build training that delivers real, measurable results. I'd love to show you what that looks like for [Company]. Are you open to a 20-minute call this week? Book directly here → [your scheduling link] — Nedavate Intelligent learning. Measurable transformation. · transformiq.co

Personalisation Rules

- Always replace [Name] — personalised emails get 26% higher open rates
- Choose one sector in the social proof line — matched to the recipient's industry
- Replace [Company] with their actual company name in the closing ask
- Keep your scheduling link live and up to date — a broken link kills momentum
- Never send the same subject line twice to the same contact — try a different variant
